## (54) OINTMENT PLASTER

## (57)Abstract:

**PURPOSE:** To provide an ointment plaster capable of hygienically and simply administering an accurate amount of an ointment on the surface of a skin without staining a hand finger, excellent in the storage stability of the ointment, and not causing the irritation of the skin on the surface of the plaster-applied skin.

**CONSTITUTION:** An ointment 2 is wrapped and sealed with a support film 1 limited in a water-vapor permeability of 0.5-100g/m<sup>2</sup>.24h. A sealing method such as a hot-pressing method is preferably adopted for sealing the support film. When used, the sealed product is opened from the sealed part 3 and developed into the ointment plaster in which the plaster 2 has been coated on one side of the support film 1. The ointment plaster is made to adhere to the surface of the skin.

## LEGAL STATUS

[Date of request for examination] 11.11.1999

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
